

PARTICIPANT INFORMATION BY INSTITUTION

Institution Name (Acronym)	University of Oviedo
Country	Spain
Researchers involved (please, indicate university department or research group affiliation where appropriate) (* contact person)	Ana Belén Soldado Cabezuelo* Candela Melendreras García Department of Physical and Analytical Chemistry University of Oviedo
Contact email	soldadoana@uniovi.es
Main Research topics	Development of on-site and real time methodologies for quality and safety control in food and feed, using spectroscopy as reference technique. Novel approaches based on luminescence measures for decentralized analysis of organic molecules in environmental, food and clinical samples. Nanotechnology, Sensors and Biosensors
Main Equipment and Facilities	Near Infrared Spectroscopy Fluorescence Phosphorescence Inductively Coupled Plasma Mass Spectrometry High performance Liquid Chromatography Field Flow Fractionation
